Name _____ Period _____

How to Complete Science Starters

For extended response questions, answers must be written in full sentences and the question must be restated. For multiple choice questions, first choose the right answer and then using complete sentences explain why you chose the answer you did.

Day 1

Which of the following statements best describes how a student should answer extended response questions on Science Starters?

A. The questions should be restated.
B. The answer should be written in full sentences.
C. Both A & B are correct. The question should be restated and the answer should be written in full sentences.
D. Use the lines on the Science Starter to beat your best friend in a game of tic-tac-do.

_____

_____

_____

Day 2

What are the two things you should do when answering a multiple choice question on Science Starters?

A. Pick your nose and share it with your friend.
B. Draw little hearts near the correct answer and think about the boy/girl you like.
C. Create a nifty paper airplane out of the paper and fly it across the room.
D. Choose the right answer and then using complete sentences explain why you chose the answer you did.

Day 4

Occasionally students are absent from school. Which of the following statements best describes what a student should do about the Science Starter that was missed when he/she was absent?

A. When a student is absent he/she does not need to do the Science Starter for that day.
B. After being absent a student will need to make up the Science Starter that he/she missed on that day.
C. The student should send an email to the principal reminding him/her to do the Science Starter for the absent student.
D. The absent student should take the Science Starter with him/her to the doctor's office in order to get a professional opinion about the correct answer.

Day 5

Science is a very broad subject in which many topics are studied. On the lines below describe what science means to you. Be sure to give a detailed explanation that restates the question and is written in complete sentences.
